John F Kennedy: Those who make peaceful revolution impossible will make violent  
revolution inevitable. [Remarks on the first anniversary of the Alliance for Progress,  
13 March 1962<sup>3</sup>]

A Maori politician in New Zealand was booted from parliament this week for  
refusing to wear a necktie, or "colonial noose" in his words, claiming that the dress  
code was used as a tool to suppress Indigenous culture. Waititi, 40, who became a  
parliamentarian for the first time in the election last October, was wearing a  
taonga, a Maori greenstone pendant instead. When Waititi continued with his  
question after being stopped a second time, Mallard ordered him to leave. "It's not  
about ties, it's about cultural identity, mate," Waititi said as he exited the chamber.

Donald Rumsfeld: Jan 11 2001: In my confirmation hearing when I was nominated to be Secretary of Defence, the best question I was asked was: What do you worry about when you go to bed at night? My answer was in effect: intelligence. The danger that we can be surprised by the failure of imagining what might happen in the world. There are known knowns, the things we know we know. There are known unknowns, the things we know we don't know. There are also that third category of unknown unknowns the things we don't know that we don't know and you can only know more about those things by imagining what they might be. Pearl Harbour was a failure of imagination. We didn't know that we didn't know that they could do what they did, the way they did it [MT: [Known Unknown](#)<sup>8</sup>] Branko Vukelić: I admire you Richard. And to the extent that you pick and choose and you are wrong. The penalty can be enormous [MT: [Known Unknown](#)<sup>14</sup>] Jordan Peterson: The error in postmodernism is the failure to recognize that there are a finite number of credible interpretations of phenomena; and also a refusal to engage with the intellectual problem to determine to engage to find out what the finite number may actually consist of. So that is the second set of constraints. You have biological constraints on your perception and they are built in, as a consequence of the Darwinian process; and the second part is that you are forced to interact with yourself now in this week, next week, and the month after. So you have to conduct yourself in a way that doesn't interfere with your future life as you are living now. And simultaneously you have to conduct yourself in a way that makes all the people around you want to cooperate with you and compete with you; and maintain the relationship with you and do that today, and next week and next month. So although there are a very large number of interpretations of the world; there are unbelievably severe constraints; on the number of functional interpretations there are in the world. And one of the things that the humanities was supposed to be educating the people with regards towards understanding was: what the universe of those finite functional interpretations might be; and that has been more or less abandoned by the universities; under the

Slavoy Zizek: Multiculturalism: How, then, does the universe of Capital relate to the form of Nation State in our era of global capitalism? Perhaps, this relationship is best designated as 'auto-colonization': with the direct multinational functioning of Capital, we are no longer dealing with the standard opposition between metropolis and colonized countries; a global company as it were cuts its umbilical cord with its mother-nation and treats its country of origins as simply another territory to be colonized. This is what disturbs so much the patriotically oriented right-wing populists, from Le Pen to Buchanan: the fact that the new multinationals have towards the French or American local population exactly the same attitude as towards the population of Mexico, Brazil or Taiwan. Is there not a kind of poetic justice in this self-referential turn? Today's global capitalism is thus again a kind of

‘negation of negation’, after national capitalism and its internationalist/colonialist phase. At the beginning (ideally, of course), there is capitalism within the confines of a Nation-State, with the accompanying international trade (exchange between sovereign Nation-States); what follows is the relationship of colonization in which the colonizing country subordinates and exploits (economically, politically, culturally) the colonized country; the final moment of this process is the paradox of colonization in which there are only colonies, no colonizing countries—the colonizing power is no longer a Nation-State but directly the global company. In the long term, we shall all not only wear Banana Republic shirts but also live in banana republics. [New Left Review: [Multiculturalism: The Cultural Logic of Multinational Capitalism](#)<sup>26</sup>]

Roger Hallam: I have some intuitions about what happened in Washington two days ago I would like to share. So first, when I saw the rioters, a bit of me was going “fair enough”. I think it was an optics thing – our eyes create our thoughts. A lot of the people looked pretty ordinary – and ordinary people have been taken for a ride for a good long time now by the elites. And second the elites – all those guys hiding under their seats in their suits- have allowed and benefited from the take over American politics by the billionaire class. It had a turning over the tables in the temple feel about it. The disaster of the official Left is that it cannot understand that if people are screwed over for a generation or two, they will follow whatever guy speaks their language and says nice stuff about them, like “I love you”. “Educated” people think this is dumb, and thinking this is the heart of the problem. They just don’t get how it feels to be treated like shit for decades. And they are pretty dumb themselves (how many times a year do they get on a plane and shit on the next generation just because they can?). A little humility about our common human fallenness would go a long way. [Roger Hallam: [Only Love Mediation Spaces for Capital Rioters Will Save America](#)<sup>27</sup>.]

97.5 % of normal people, prefer to obey ethical laws: Nestar Russell and Annette Bolton: Awareness of impending climate catastrophe has greatly increased over the last 30 years. Increasing awareness, however, has not translated into decreasing but instead increasing greenhouse gas emissions. Interestingly, as illustrated by Milgram’s previously mentioned Subject Free to Choose Shock Level condition, when ordinary people at the end of an organisational chain (e.g., consumers) are aware of the harmful consequences of their actions and they are then offered the unimpeded option to act ethically, 97.5 per cent chose to do so. As long as their self-interests are not too heavily compromised by manipulative up-stream meddling, Milgram’s research clearly illustrates that most people prefer to pursue what they understand to be the morally right course of action. Thus, perhaps more than any other factor, our present inability to avert climate catastrophe is largely an abuse of (mostly higher) power and a total failure of leadership. The fish rots from the head down. [MPDI: ["Climate Catastrophe and Stanley Milgram’s Electric Shock “Obedience” Experiments: An Uncanny Analogy"](#)<sup>28</sup>].

Martin Luther King: The greatest purveyor of violence in the world is the United States Government: My third reason moves to an even deeper level of awareness, for it grows out of my experience in the ghettos of the North over the last three years, especially the last three summers. As I have walked among the desperate,

rejected, and angry young men, I have told them that Molotov cocktails and rifles would not solve their problems. I have tried to offer them my deepest compassion while maintaining my conviction that social change comes most meaningfully through nonviolent action. But they asked, and rightly so, “What about Vietnam?” They asked if our own nation wasn’t using massive doses of violence to solve its problems, to bring about the changes it wanted. Their questions hit home, and I knew that I could never again raise my voice against the violence of the oppressed in the ghettos without having first spoken clearly to the greatest purveyor of violence in the world today: my own government. For the sake of those boys, for the sake of this government, for the sake of the hundreds of thousands trembling under our violence, I cannot be silent. [King Institute: [Beyond Vietnam](https://kinginstitute.stanford.edu/king-papers/documents/beyond-vietnam)<sup>29</sup>] If you really want to be free, you have to overcome the love of wealth and the fear of death. MLK: Unlike plagues of the dark ages or contemporary diseases we do not yet understand, the modern plague of overpopulation is soluble by means we have discovered and with resources we possess. What is lacking is not sufficient knowledge of the [EoP law] solution but universal consciousness of the gravity of the [WiP law] problem and education of the billions who are its victims. [EoP Amended World Population Balance: [Martin Luther King: Margaret Sanger Human Rights Award Acceptance Speech 1966](https://www.worldpopulationbalance.org/quotes)<sup>31</sup>] Malcolm X: The only way our overpopulation and overconsumption resource conflict problems can be solved. First the white man and the black man have to be able to sit down at the same table. The white man has to be able to feel free to speak his mind without worrying about hurting the feelings of the negro. The socalled negro has to feel free to speak his mind without worrying about hurting the feelings of the white man. The soldiers have to be able to feel free to speak their minds without worrying about hurting the feelings of the civilians. The civilians have to feel free to speak their minds without hurting the feelings of the soldiers. Then they can bring the EoP v WiP law [eop-v-wip-law] issues that are under the rug out on top of the table and take an intelligent approach to get the problem solved [EoP Amended: PBS: [Malcolm X: Make it Plain](https://www.youtube.com/watch?v=csWByunwVI8)<sup>32</sup>].

Andrew Nikiforuk: In the early 1800’s, the average American male was self employed on farms, they had a code of self reliance, of community mindedness, and there was this agrarian ideal that was fundamental to the American character, which made them value equality in their communities. Along comes oil that mechanizes and industrializes the landscape, takes all of these self employed men and the very notion of masculinity tied to all of that turns it upside down and makes men into managers and servants of machines. So within quick order the number of self employed in the United States completely changes and most American males become part of a work force, working with machines, quite often in states of servitude. Energy flows don’t just change your politics and families and character, but they also change gender roles. Nobody has explained what the benefit is to Israel for pulling out of here. And all I ever hear is Give Peace a Chance. Leaving here is a bold move for peace. What bold move for peace? It's absolutely senseless. Everyone out here is so laid back, they are practically laid out. I would have preferred an old age home. Its true, I've been ready for an old age home since my Bar Mitzvah, but since she calls the shots, and wanted to go out and have an adventure, before they send us to the glue factory.. We came out here. [Highway 51: Withdrawal from Gaza ]

[11] EoP v WiP Law:

[11.1] EoP Scientific and Cultural {eop-scicultlaw} – aka Garden of Eden – law clearly, simply and unequivocally requires citizens to procreate and consume below ecological carrying capacity limits [eop-footprint]; and relate in terms of fully informed consenting agreements [ego-eco-literacy]; to avoid ecological overshoot and racial, religious, class and gender resource conflict.

[11.2] The Ecology of Peace Radical Honoursty Factual Reality {eop-rh-fr} conscious strategic goal for implementing EoP Scientific and Cultural law is an egalitarian responsible freedom [responsible-freedom] stable – no population & economic consumption growth above ecological carrying capacity limits – sustainable low tech family farm agrarian village and primitivist nomad society living in peace; with no palaces, prisons, mental institutions, homeless and unemployed, where rape and murder are so rare, they don't have words for it.<sup>87</sup>

<sup>87</sup> Gimbutas noted the stable – no population & economic consumption growth – Steppe Aryan population: that a low tech agrarian village founded in 8000 BC was still a low tech agrarian village in 4000BC. This also allowed them to sustainably farm the land, and live in peace. There are no steppe Aryan palaces, no prisons, no mental institutions, no homeless and no unemployed. No harems; they didnt even have marriage, just as the Musou still today. Among whom, rape & murder are so rare they dont have words for it. – Day Brown: Proto Indo-European

[11.3] Babylon WiP law consciously or unconsciously, negligently or intentionally allows citizens to procreate and/or consume above ecological carrying capacity limits; resulting in ecological overshoot and racial, religious, class and gender resource conflict.

[A] The conscious or unconscious strategic goal of WiP law is a hierarchical slavery freedumb society where the military, legal, political, religious and legal elite profiteer of cheap – economic sexual and/or military – cannon fodder labour and homeless and unemployed misery of the masses; with plenty of racial, religious, class or gender resource conflict for the elite to parasitically profiteer from to build themselves military, religious, corporate and polegal palaces, cheap labour prisons and mental institutions slavery plantations, where rape and murder are so plentiful, WiP Only BDSM addicted to misery judges don't need to subscribe to porn channels, because they have reality rape and murder porn tv channels in their courts.<sup>88</sup>

[12] EoP v WiP Courts:

[12.1] An 'EoP Only' Court – generally in a national polegal system dominated by WiP law whose juridical transformation goals are to transform the judiciary into an EoP legal system – only accepts applications from individuals who are consciously – unconditional or conditional cooperator – members of the Ecology of Peace culture.

[12.2] An unconscious Babylon 'WiP Only' court unconsciously accepts applications from individuals who are consciously or unconsciously members of EoP and Babylon WiP cultures.

[12.3] A conscious Babylon 'WiP Only' court consciously only accepts applications from individuals who are consciously or unconsciously members of Babylon WiP cultures.

Because ss 30 and 31 specifically guarantee an individual and a group's right to pursue a culture of choice, it could be argued that application of customary law has become a constitutional right. Previously, the state had assumed complete discretion in deciding whether and to what extent customary law should be recognized, an attitude typical of colonial thinking, for Africans were subject to whatever policies the conquering state chose to impose on them. [19] Ecology of Peace culture advocacy recognizes that generally speaking conventional politicians ignore the hell out of voters who have (a) no campaign finance funding; (b) no lawyers; (c) no big fanclub; (d) no media attention. The focus of EoP culture is sincerity: sincere republicans, sincere democrats, sincere Nazis, sincere black panthers; sincere oligarchs, sincere janitors. The EoP law culture's definition of sincerity is called ego literacy [[ego-eco-literacy](#)<sup>96</sup>: Annex A: [PDF](#)<sup>97</sup>: pp.15-16/45]. Without lawyers, fanclubs or WiP law media attention; EoP law culture have managed to get on the record written responses on very controversial issues; in some cases they are the only such publicly available written responses on the particular issue; from the following individuals / organizations:

[19.1] On 06 Sep 2001, Nicholas E. Allegedly Mr. Calio's response letter to UFO disclosure issues, is the only formal White House response on the UFO issue ever authored. All other White House responses to UFO Disclosure issues were referred to NASA for a form letter official response.

[A] On 28 July 2001, I went on a hunger strike in support of President George W Bush to support the US Disclosure Project<sup>102</sup> witnesses<sup>103</sup>. Among others I wrote to Archbishop Desmond Tutu, requesting him to support President George W Bush and the Disclosure Project witnesses. He responded declining to support President Bush and the Disclosure Project, stating among others, to my recollection, that the first world 'did not have the will to make the Sahara blossom'. unaware of the White House letter, I notified individuals following the UFO Disclosure hunger strike that I would be ending the hunger strike, and would issue a press release on 11 September 2001 at 09:00 hrs PST. The press release was never sent. The World Trade Center attacks started at 08:46 EST. 11 September is the anniversary of 11 September 1830, the Anti-Masonic Party's First National Convention, the four-year anniversary of the abduction of William Morgan, who was planning to print an exposé on Masonic rituals, and was believed to have been kidnapped and murdered by Freemasons supposedly intent on making sure that Morgan did not reveal any Masonic secrets<sup>104</sup>.

[19.2] On 02 July 2012, Anders Breivik responded [02 Jul: [Anders Breivik's Thank you letter](#)<sup>105</sup>] to Amici's Ecology of Peace Truth and Reconciliation legal applications to Norwegian courts on his behalf: "I received your letter and have followed your blog (indirectly) for quite some time now. I am also familiar with all your hard work and efforts to assist me. I first heard about you when you offered to stand trial and go out in flames with me. Thank you for this moral support. It was perhaps the most spectacular and also quite romantic way to show support, that's for sure, and I truly do appreciate it. If it came down to it, it would be an honour to have you at my side". As far as I am aware I was the only individual making Ecology of Peace Truth and Reconciliation submissions to Breivik's court proceedings.

[A] From July 2011 to 2014: I filed EoP TRC complaints against Anders Breivik's appointed psychiatrists, and applications to among others Oslo District, Norway Supreme Court, and the European Court of Human Rights, requesting Norwegian authorities to provide Anders Breivik a free and fair terrorist treason trial equivalent to the free and fair terrorist treason trial provided to Nelson Mandela by the Apartheid government . In accordance with EoP law Braveheart-SS<sup>106</sup> honour lawfare advocacy: If they were willing to provide Anders a free and fair treason trial, and Anders was convicted and sentenced to death, they would also sentence me to death.

<sup>110</sup> All South Africans are settlers, regardless of their skin colour, and their DNA carries the proof. So says Dr Wilmot James, head of the African Genome Project, a distinguished academic, sociologist and, more recently, honorary professor of human genetics at the University of Cape Town. And he says South Africans will soon have a public genetic database which will show how the country became populated over thousands of years. The African Genome project is supported by local genealogy website Ancestry24.com. James aims to trace the origins of South Africans "no matter what their language, ethnic origins, or skin colour. No one group can lay claim to South Africa. Everyone is a settler, and we will show how people came here in waves of migration. [A] I understand that my EoP international law / Exit Babylon WiP law / EoP OKC TRC vote will provide a political and legal mandate for President, Senate and Congress; to implement EoP Scientific and Cultural law {eop-sciicultlaw} as international law; via UN General Assembly vote or International Court of Justice Declaratory Order; to [A] enable orderly and humane – de-industrialization and depopulation, prisoner release {prisoner-pardon}, land reform {eop-landreform} and denuclearization {eop-denuke-defn} – economic degrowth shut down of

the Babylon War is Peace Ponzi Swamp economy {eop-sdwipecon} transition to a low tech responsible freedom family farm agrarian economy; by [B] requiring all citizens of all races, religions, nations, to breed {one-child-law} and consume below ecological carrying capacity limits {eop-footprint}; or be humanely eliminated from the planetary genepool {crimes-of-aggression}; [C] nationalizing all property and providing all responsible freedom oath {responsible-freedom} citizens: (i) with cultural law self rule territorial homelands for groups with subjective racial, religious & gender identities {cult-law-self-rule}; and (ii) guaranteed for life property ration (property-ration} land reform to enable their shelter and survival self-sufficiency to enable the rebuilding of a relocated low-tech organic agrarian sustainable future.

[B] I further understand that if or when EoP SciCult law is implemented as international law, I shall – like all global citizens – legally be required to cooperate and sign my unconditional cooperator responsible freedom oath; and should I refuse; I shall be convicted of negligent and/or intentional crimes of aggression {crimes-of-aggression}.

[31.2] No EoP OKC TRC Vote:

[A] I understand that my No WiP international law / No EoP OKC TRC vote provides my citizen consent to living in a WiP law mafocracy slaughterhouse; a hierarchical slavery freedumb society where the military, legal, political, religious and legal elite profiteer of cheap – economic sexual and/or military – cannon fodder labour and homeless and unemployed misery of the masses; with plenty of racial, religious, class or gender resource conflict for the elite to parasitically profiteer from to build themselves military, religious, corporate and polegal palaces, cheap labour prisons and mental institutions slavery plantations, where rape and murder are so plentiful, WiP Only BDSM addicted to misery judges don't need to subscribe to porn channels, because they have reality rape and murder porn tv channels in their courts.
